TRENDBOOK - 2020

DALLOZ GROUP

We are proud to introduce our new Trend Book 2020, sharing with you our vision of what the years to come should reflect.

This Trend Book is the outcome of a collaborative work between various entities of Dalloz Group, including our Design and Creation Agency.

Indeed, we pictured it hoping it can be source of inspiration for you, in your own process of creation.

This new collection aims at enhancing both the invariably high standards of quality of our products, and the ancestral know-how we claim in meticulously selecting our stones.

We hope you enjoy discovering this Trend Book and the resource it offers to jewelry creators.

INCANDESCENT LAND

Natural world brings balance and energy. Anywhere.
Anytime is osmosis.

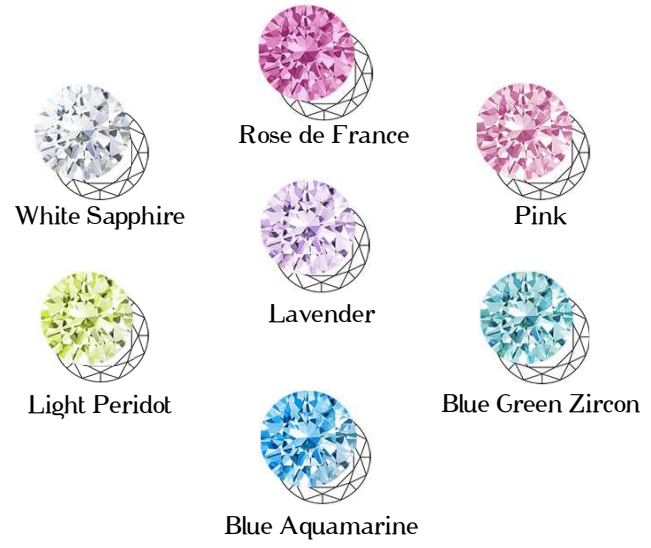

Cold and warm shades meet the course of seasons.
Luxuriously crafted gold combined with rugged, unaffected
materials as an illustration of mass consumption.
Daloz being inspired by nature is not really about business, it
is about our profound attachment to the land, our heritage.

Jewelry inspirations

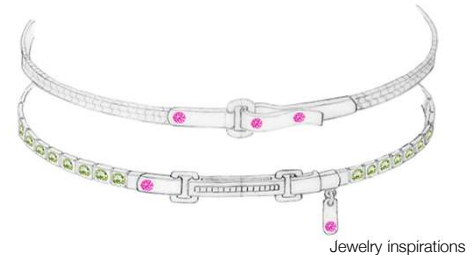

ECO-CONSCIOUS

One major asset of Dalloz Group is the expertise of RSA, French manufacturer of created Spinel and Corundum rough.

We selected there the famous Rose de France corundum that became our iconic and inimitable color.

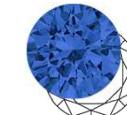

Another asset is our absolute commitment in guaranteeing ethical and eco-responsible productions.

Jewelry inspirations

ARCHAIC FUTURIST

Blue Sapphire

Champagne

D. Brown

Golden Sapphire

Orange

Dark Ruby

Dark D. Brown

Learn from the past to create the future.

While continuously innovating in production processes, the precious materials we use have of all time remained the same.

Future aesthetics echo ancient rites.

In a lucid but optimistic look to the future, we remain environmentally sensitive with this golden, shiny and luminous radiance

Jewelry inspiration : ring from Garden Party's Rendez-Vous collection, Dalloz' High Jewelry branch in Lyon.
